S. & I. R. R.—We are pleased to learn that, the Board of Directors of the S. & I. R. R. Company, on last Friday by a unanimous vote, elected the Hon. T. L. Jewett, to the Presidency of said Company, in place of Wm. H. Hubbell resigned.

From the well known legal requirements of Judge Jewett, his integrity, reputation for fair dealing, and general forecast of men and measures, we regard him as being well adapted to the station he is called upon to fill.—Being at times a resident of Jefferson and Harrison Counties, and well known all along the line of the road, he has the confidence of those interested therein, and can be relied upon to act for the best interest of the Stockholders, and parties interested a long the line of the road.

"Many go out for Wool and come home."

HO. FOR THE HARLEM SPRINGS.—This pleasant resort for all who wish to fly from the "toil and turmoil of city life during the heat of the summer months, has been thoroughly refitted, and is now ready to accommodate visitors in much better style than formerly. Mr. Hibbert has associated with him, Dr. Zollars of Wayne County; They feel confident that they will be able to render the "Springs" unsurpassable, in the way of a comfortable "watering place."

A hack will run regularly between the Cadiz Junction and the Steubenville and Indiana Railroad, and the Springs.

Further particulars in reference to the facilities for reaching the Springs may be had by referring to the advertisements of the Proprietors in another column of to-day's paper.

We refer our readers to the advertisement of Mr. P. F. Geisse of Wellsville.

On our visit to Wellsville a few days since by the politeness of Mr. G. we were conducted through his extensive Foundry building, and examined his machinery. It is of an excellent quality. The work done in this establishment we suppose is not excelled east or west. The well known energy and promptness of the proprietor will insure strict attention to all orders.

STATE TREASURER.—We have heard the name of our old friend A. L. Brewer, Esq. of New Lisbon Columbia Co. O. favorably mentioned in connection with the office of Treasurer of State. If the Republican Convention of the 13th of July should be disposed to do common justice to the north Eastern portion of the State by allowing that section to be represented on their ticket, they could not do better than to select Mr. Brewer. He certainly possesses all the requisite qualifications for that responsible position in an eminent degree.

We have received within the last 10 days over sixty new subscribers to the True American and also a fair sprinkling of advertising in this issue. We are thankful to our friends for their patronage.

We have received a communication from Dr. Caldwell of Wellshurg, in reply to the wanton attack made upon him by the Editor of the Union, together with certificates establishing the truthfulness of the doctors statements, and seriously implicating every man who votes the Fusion ticket, shall vote an open ballot, in the presence of men appointed for that purpose, and enroll their names on the list so doing. Government employees whose names are not found thereon, will have to seek quarters elsewhere, as Mr. Pierce and his Cabinet will have no further need of their services. What a glorious farce the right of suffrage is getting to be!—Who would not be one of Mr. Pierce's minnows?—American Citizen.

Wanted a line and here it is.

In consequence of the sickness of one of the hands in our office we have been unavoidably prevented from issuing this paper as early as we had hoped to have done. Our friends will please excuse the delay.

## CIRCULAR.

The New-York Musical Review entered upon its sixth year, in January, 1855. It is a handsomely printed journal of sixteen large, quarto pages, including four pages of Music in each number, and is published every other Thursday.

The Musical Review is designed to be comprehensive in its character—aiming to furnish the most just, thorough, and impartial articles which can be obtained, upon all branches of musical art and science, including biographical sketches of composers and artists, analyses of compositions, and criticisms of performers and performances to give a copious summary of the significant musical news of this country and Europe, comprising the very pick and pith of musical events and gossip, and to furnish an ever fresh supply of New Music, consisting of Songs, glee, pantomimes, and piano and melodeon pieces, in great variety; also, critical notices of the sheet music and musical publications of the day, carefully and concisely prepared, so as to furnish a reliable guide to purchasers in selecting new music. In addition there is now being published in the Musical Review, a new work by Mr. Lowell Mason, which is designed as a complete guide book or manual for music-teachers this feature of the paper is alone worth many times its cost.

Such are some of the attractions the New-York Musical Review aims to supply; and the best evidence of the appreciation of its efforts by the public may, perhaps, be found in the fact that it has attained a circulation twice as large as that of any other musical journal in the world. A continuation of this support is hoped for, and renewed exertions will be made, and increased inducements exhibited, to secure it.

As it is the desire of every family in this enlightened land, totale a good paper that will be both amusing and instructive, we take pleasure in recommending our friends to try the WAVERLY MAGAZINE published at Boston, Mass., by MOSES A. DOW, at only \$2.00 a year, or \$1.00 for six months, in advance. It is the largest paper in this country, beautifully printed, with 16 large pages, filled with Tales, Biography, History, &c., and a new piece of Music for the piano and guitar, in every number. It is always stopped when the time is out, and no one may run the risk of being imposed upon, by buying the paper forced on them. All the articles are complete in each number, published weekly.

Important Notice.

CEMETERY OFFICE, May 14, 1855.

The undersigned, most respectfully, but urgently calls upon subscribers to pay up their several subscriptions for stock it the "Union Cemetery." Every exertion is being made to prepare the grounds for immediate use, and consequently a considerable number of laborers are employed, who must be paid weekly. Labor sufficient to enclose the grounds has been purchased, and the fence is being built. Hence the necessity for money.

Those who have not taken stock are informed that additional subscriptions will be kindly received. The books are in the hands of John S. Patterson, Esq., Treasurer of the Association, at whose office payments can be made, and subscriptions received.

ROMANCE OF REAL LIFE.

A wedding took place in Bristol, England, a few weeks since, under somewhat romantic circumstances, realizing the old adage that "truth is stranger than fiction."

It appears that a sister of Mrs. N., who resides at Montpelier, some two or three years since married a merchant, and emigrated to California soon afterwards, with a view of bettering their fortunes, taking with her the likeness of an unmarried sister.

The picture happened to be hung in a very conspicuous part of the house in California, and attracted the attention of a rich resident of that district, who happened to pay a visit to the house. He was enraptured with the image of the fair unknown, and exclaimed, "By Jove I'll marry that girl if she is to be found in the world."

He was told where she resided, and he posted to her a note enclosing a present of forty pounds sterling, and a few days since a knock was heard at the door, and on the young lady going to open it, a good looking, young featured gentleman rushed into the house and gave her a chaste salute, exclaiming, "that he had come from the other end of the world to find her;" at the same time pulling out the likeness which first led him to seek his attraction. Of course they were married, and are to live long and happy" as usual.

A municipal election was held in Washington city yesterday. It being important that all the employees of Government be compelled to vote the Fusion ticket in order to defeat the Americans, it was resolved at one of their meetings a few days ago, that in order to prevent cheating, every man who votes the Fusion ticket shall vote an open ballot, in the presence of men appointed for that purpose, and enroll their names on the list so doing. Government employees whose names are not found thereon, will have to seek quarters elsewhere, as Mr. Pierce and his Cabinet will have no further need of their services. What a glorious farce the right of suffrage is getting to be!—Who would not be one of Mr. Pierce's minnows?—American Citizen.

MEDICAL.—Dr. Durand, is in our office at the Washington Hall. Those afflicted who desire his services, can see him at that place. He has the reputation of a physician of great skill. We quote the following from the Zanesville Aurora:

"Dr. W. V. Durand has placed in our hands, a certificate signed by Samuel Barstow, a well known and highly respectable citizen of Washington township, in this county, which speaks volumes in favor of Dr. D.'s skill in the treatment of disease. In conversation with Mr. Barstow, we are informed that he has two children, one four and the other nine years of age, who have been afflicted from birth with an inability to walk. Dr. Durand has not only cured them, but has relieved Mr. B. of a fistula of fourteen years standing."

In reference to the genuineness of the certificates, of cures performed by Dr. Durand, we clip the following from the McCandlessville Ohio Enquirer, of April 6th:

The Dr. has exhibited to us a number of certificates which he receives, from individuals who have been under his care, each highly complimentary to his skill as a physician, and his treatment of the disease with which these who voluntarily gave these testimonials were afflicted. These certificates are from persons of the highest standing and respectability.

The Zanesville Aurora of March 12th, terms the following additional testimony:

Dr. Durand has laid upon our table the certificates of several of his patients, prominent and highly respectable citizens of this county, which speak volumes for the benefit which they have received from his treatment, as well as of the success and popularity of his mode of practice in their several neighborhoods.

To the above, we take the liberty to add, that we have carefully examined many of the certificates in the possession of Dr. Durand, and find them to bare all the marks of genuine testimonials of his wonderful skill, and almost unprecedented success. As health is above every other earthly blessing, we should avail ourselves of every facility by which to procure it when lost, and to preserve it when found.
